The Governing Council of the University of Toronto represented by the University of Toronto Libraries hereby agrees to act as the Service Provider, as defined in section 1.9 of the License Agreement;

NOW IT IS HEREBY AGREED as follows;

From the Date hereof the License Agreement shall be amended as follows;

1. General.

Licensor agrees to deliver electronic copies of the Licensed Materials to the Service Provider for the purposes of loading onto its server(s) and to provide access to its members and Authorized Users (also known as 'local hosting'). Service Provider hosting services are limited to those servers within the Server Domain name of Scholarsportal.info and related IP address ranges.

2. Format.

Licensor agrees to provide Licensed Materials in the following formats:

☒ PDF image files for the full-text of content.

MIX

☒ SGML or XML structure information (commonly known as 'headers' or 'header data') for each article conforming to the publishers DTD or XML Schema.

☐ Other Formats (subject to approval by Consortium)

Please Specify: FTP

MP

22

In addition, Licensor agrees to provide the Service Provider with any other metadata information, including any DTD or XML Schemas, for the purposes of accurately loading, storing and rendering the Licensed Materials on the Server(s) operated by the Service Provider. In the case of electronic journals, the header data (normally in SGML format) should be clearly related to the underlying content (normally the PDF version of the article or associated text) based on some combination of common base file names, organization into a hierarchical directory structure reflecting the organization of volume, issue, and article, or by use of a table that maps the SGML file name to the corresponding PDF. Licensor agrees to use reasonable efforts to assist the Service Provider in all activities required to render a faithful reproduction of the Licensed Materials on the Service Provider's servers, including making appropriately trained staff available during normal business hours for assistance (8:00 am to 4:00 pm EST).

The content of the Licensed Materials provided shall not normally materially differ from any equivalent print editions of journals. Any exceptions shall be identified and agreed upon in advance by both Licensor and Licensee.

3. Portability.

The Licensee shall have the right to migrate the Licensed Materials on a locally hosted system to new formats, in response to technological change, in order to ensure ongoing access to Authorized Users, within the framework of this License. It is understood that digital rights management technology shall not interfere with this right.

4. Schedule of Delivery.

Licensor agrees to make copies of the Licensed materials available to the Licensee in a format consistent with this agreement within a reasonable time period. For the purposes of clarity, Licensor will provide all current Licensed Materials within a period of Any (90) working days from the date of this agreement. In addition, Licensor agrees to provide the Service Provider with any subsequent content or update to the Licensed Materials after the first appearance of the Materials on the licensor's web server(s) within a period of Any (30) working days.

5. Notification of Updates.

Licensor agrees to provide the Service Provider with information pertaining to any subsequent modifications to the Licensed Materials within a period of ten (10) working days.

6. Withdrawal of Licensed Materials.

Licensor shall give written notice of any intention to withdraw any part of the Licensed Materials from their server in accordance with Section 6.9 of this agreement. Licensor may request that the Service Provider remove an item or part(s) of the Licensed Materials present on the server(s) operated by the Service Provider by providing detailed rationale in writing to the Licensee no less than sixty (60) days prior to the scheduled date of removal from Licensor's server. Licensor shall not knowingly cause the removal or deletion of any part of the Licensed Materials on the server(s) operated by the Service Provider through the use of data loads or any related data delivery mechanisms or processes. Service Provider retains the right to archive and continue to provide access to the withdrawn materials provided that a permanent note, mark or URL link is made indicating that the article has been removed from the Licensor's servers. Where possible, a link will be made from the server(s) operated by the Service Provider to the Licensor's server to provide the rationale as to why the material was removed.

7. Termination.

Should the Licensor decide to terminate the agreement, the Licensed Materials would remain on Scholars Portal servers in perpetuity. Access rules and Copyright as stated in the license remain in place.
